SUMMARY

Result oriented engineer with 5years of hands-on mobile development experience in cross platform applications integrated with RESTful APIs and microservices, effectively contributing towards organizational success by incorporating existing workflows and identifying feasible measures to move forward using best practices and latest technologies, with the desire to build software while working together as a team player.

EXPERIENCE

MARCH 2022– AUGUST 2022

MOBILE DEVELOPER, FEDERAL UNIVERSITY OF TECHNOLOGY, OWERRI

I was employed by my department in my university to improve their mobile application originally created by me, I lead a team of 5 to minimize the number of reads and writes from each document in the database which helped reduce the billing cost using that database by 26.8%.

SEPTEMBER 2019– AUGUST 2022

FREELANCE MOBILE DEV, FIVERR

I made companies grow their business against competitors and delivered their finished projects in less than a week for premium mobile applications.

EDUCATION

AUGUST 2020– SEPTEMBER 2025

FEDERAL UNIVERSITY OF TECHNOLOGY, OWERRI

BSc. MECHATRONICS ENGINEERING**,**

GPA 4.2

I was elected as the President in my school's software engineering club

SKILLS

- **Flutter/Dart**
- **Git**
- **RESTful APIs/ Database Management**
- **Java**
- **C/C++**
- **JavaScript**

CERTIFICATION

Duke University

Introduction to machine learning (Coursera)   verify at coursera.Org/verify/DTVNR8ZXYTCP

HOBBIES

TEAM PLAYER/TEACHING/MORNING JOG
